Navigation

Providing you with a flexible, intuitive web-like experience.

Registration process

1

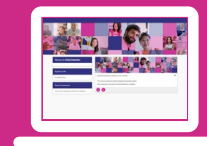

You will receive your login details and URL via email

2

Register your account using your company email address

3

You are now able to access and begin your elearning program

What should I do if I encounter a problem?

If you have any problems accessing the program:

- Please check if you can access the program ok through your phone network or another external wireless network. If so, it is very likely that there is an issue with your internal corporate network
- In the first instance, check with your internal IT support team. Most initial issues relate to internal firewall settings or bandwidth permissions
- If this does not fix the problem, please contact Laura Hall at Global Integration, laura@global-integration.com who will respond in UK (GMT) office hours (09:00-17:00)
- Apple devices do not allow scrolling of PDF's, these need to be downloaded
